

[VIDEO MONTAGE OF JUAN AND HIS CHILDREN]

[Juan:] I immigrated to America when I was 20 from a country called Uruguay. I have two careers. I'm in the Army Reserves and I have a civilian career as an engineer. And I have two wonderful children.

Everyday is a challenge to make sure that the time that I have, I spend with them. It doesn't matter how tired you are, you have to be there. You have to be present for them. You have to try and to teach them.

When they learn something new and it just clicks in their brain, I just realize I could do this. And you can just see it in their faces. It's...it's such an incredible moment. It's those moments that are my favorite.

[Never stop being a dad]
