## NRFC Transcript: Manual

**Father:** Take an ordinary putty knife and scrap off the old wax ring. Place the new wax ring over the flange, then line up the bolts with the bowl and gently set in place, making sure a proper seal is created with a flange and drain.

Next....

**Daughter:** Umm Dad?

**Father:** Uh, Yeah sweetie?

**Daughter:** Is that an old plumbing manual?

**Father:** Oh um yeah (*laughs*) yeah hunnie.

**Daughter:** We really need to get some new books

**Father:** Right, um, did you want me to stop?

**Daughter:** Nah, I kinda want to know how it ends..

**Father:** Okay. Tighten the bolts line up the flushing valve to the opening at the top of the bowl and secure the tank with a screw driver and crescent wrench.

**Daughter:** *Giggles*

**VO:** The smallest moments can have the biggest impacts on a child's life.

Take time to be a Dad today. Call 877-4DAD411 or visit [fatherhood.gov](http://fatherhood.gov).

Brought to you by the US Department of Health and Human Services and the Ad Council.
